

Appl. No. 10/754,323  
Amdt. dated October 14, 2005  
Reply to Office action of July 28, 2005

**Amendments to the Specification:**

Please replace the Abstract of the Disclosure with the following amended Abstract:

**ABSTRACT OF THE DISCLOSURE**

A stab-in connector that locks with an opposing identical connector, through a slot in the main beam of a suspended ceiling grid. The connector has a cantilevered locking latch that is pivoted in an arc extends from the base of the connector along an arc, so that ~~delays~~ contact with between the cantilevered latch and the side of the slot is delayed as the connector is being stabbed into the slot.
